

REACH Declaration

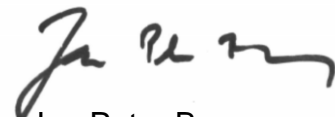

Regulation (EC) No. 1907/2006 (REACH) 223 SVHCs

REACH (Registration, Evaluation, Authorization of Chemical Substances) is the European Community Regulation on chemicals and their safe use. The law entered into force on 1 June 2007.

As Hyperstone does not manufacture or import any chemical in excess of 1 tonne per year, Hyperstone does not have to register under the regulation.

Furthermore, Hyperstone products do not contain any "Substances of Very High Concern" (SVHCs) beyond the limits defined in the REACH Regulation (updated 17 January, 2022), with the exception listed in Annex 1. SVHCs are chemicals that are considered to be toxic, carcinogenic, mutagenic, reproductive toxins and harmful to the environment.

REACH Declaration

Annex 1

Communication information according to Article 33

The substrate's core of the devices listed in column a) of the table below contains <1% by weight of the following substance:

	Substance	CAS No.	Worst Case Concentration (ppm)
a)	4,4'-isopropylidenediphenol (Bisphenol A, BPA)*	80-05-7	< 10000

Note: Substrates core/PP contains <1% (w/w) of Bisphenol A as impurity and byproduct in dielectric layer. Substrate and IC package may contain > 0.1% (w/w) Bisphenol A for devices checked in column a) below.
